This is a very popular training series with an emphasis on rider development in the most popular racing format in the USA. Elite and professional racing teams have used this event as training for such races as Downers Grove USA Professional Criterium Championships. In this multi-lap multi-race evening, bike handling skills, handling turns in a pack, and sprinting are keys to the evening. The benefits are just showing up! This race provides an opportunity to race competitively on a week night. It is a great venue for beginners and race novices to learn how to race. NOBODY gets pulled! If you get dropped, jump back in after you've recovered, but please don't sprint at the end of the races. Various race formats keep the racing from getting stale. Juniors must have a release signed by a parent or legal guardian. HELMETS ARE MANDATORY!!!

**Weather /Cancellation:** The chief ref and race director call it on the line based on current conditions and predicted weather.

**Location:** 21901 Central Avenue, Matteson, IL. 60443
