Mass Start Test:	The Mass Start Tests will be run as follows: All riders will be given 3 laps prior to the Test starting to get up to speed. The timing will take place at the pursuit line on the home straight. Riders must trigger the electronic timing, to do so they must be below the “stayers” line at the start of the test. Riders may choose to finish the ride regardless of their 500m time. We encourage this especially at the junior level.
