Registration in the 2008-2009 UCI International Track Calendar

Dear President,

Please find herewith the different documents required to register international track races for the 2008-2009 season, which is going to start the day after the 2008 Elite World Championships and is going to end on the last day of the 2009 Championships.

We would like to draw your attention to article **1.2.006**, which lists the criteria of an International Track race and states that each International race must be registered into the UCI International Calendar and not into the National Calendar. **Furthermore, a race has to be registered into the UCI International Calendar in order to award UCI points.**

As per the scale in Title 3, Chapter III of the UCI regulations, the number of points awarded to the participants of an event depends on its classification. Accordingly a class 1 event, for example, will award more points than an event of a lower class.

For all events registered into the 2007-2008 Calendar a track race report must be provided by the president of the Commissaires Panel, failing this, the event will be relegated. From these reports depends also the classification of an event.

Further to questions and remarks received in respect with the procedure of events classification, some examples to illustrate the system applied has been added to the enclosed instructions for registration.

The Financial Obligations for 2008 related to the calendar fee will be shortly available. All international events subordinated to the UCI Track Commission shall be then registered on schedule.

We would like to take also the opportunity to remind you that since 10th June 2005, **National Championships are granting points to riders taken into account within the UCI Track Individual Classification**. Therefore, please inform us of the dates of your National Championships taking place within the 2008-2009 season as described above.

There is no UCI registration fee for International Junior competitions or for National Championships, however, we need all dates.

The registration file have to be returned to the UCI office by the Organisation and approved by the National Federation no later than **15th December 2007**. The UCI International Track Calendar will be ratified by the Management Committee during its meeting of 25th January 2008 in Treviso.

Should you require any further information, please do not hesitate to contact us.

Yours sincerely,
